

CHANDAN MISHRA

Dwarka , New Delhi | 8527935646 | chandankmishra567@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Machine Learning Engineer and Data Analyst with 2+ years of experience and 50+ completed projects. Proficient in Python, SQL, Excel, Power BI, Scikit-learn, Flask, Docker, and AWS. Experienced in data analysis, machine learning, feature engineering, model development, deployment, ML pipelines, and building scalable, data-driven solutions to solve real-world business problems.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Data Analysis & Visualization:** Pandas, NumPy, Microsoft Excel, Power BI, Matplotlib, Seaborn
- **Machine Learning:** Scikit-learn, Regression, Classification, Clustering, Feature Engineering, Data Preprocessing, Model Evaluation, Hyperparameter Tuning, Machine Learning Pipelines
- **Databases:** MySQL, PostgreSQL
- **Cloud & DevOps:** DevOps, AWS (EC2, S3, IAM, Cognito, CodeBuild, CodeArtifact), Docker, Git, CI/CD
- **Web Development & Deployment:** Flask, REST APIs, Model Deployment
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, Visual Studio Code, Anaconda
- **Core Concepts:** Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization, Statistical Analysis, Predictive Modeling, NLP

WORK EXPERIENCE

Machine Learning Engineer & Data Analyst (Independent Contractor)

Remote Contract Position | Jun 2025 – Present

Tech Stack: Python, SQL, Pandas, NumPy, Scikit-learn, Flask, Power BI, Excel, AWS, Docker, Git

- Delivered machine learning, data analytics, and automation solutions to address business and client requirements.
- Built, trained, and deployed machine learning models using Python, Scikit-learn, Flask, Docker, and AWS cloud services.
- Performed data preprocessing, exploratory data analysis (EDA), feature engineering, model evaluation, and SQL-based data analysis.
- Developed interactive Power BI dashboards, automated reports, and data visualization solutions to support business decision-making.
- Implemented end-to-end ML projects including House Price Prediction (Regression & Flask Deployment), Movie Recommendation System (NLP & Content-Based Filtering), Sales Data Analysis Dashboard (Power BI), and Customer Churn Prediction (Classification Model).

BeGrids Technologies | Data Analyst Intern

Nov 2024 – Apr 2025

Tech Stack: Python, SQL, Excel, Power BI, Pandas, NumPy, MySQL

- Analyzed, cleaned, and transformed datasets using Python, SQL, and Excel to generate actionable business insights.
- Developed interactive Power BI dashboards and automated Excel reports for data visualization and performance tracking.
- Performed data preprocessing, exploratory data analysis (EDA), and statistical analysis to support business decisions.
- Wrote and optimized SQL queries for data extraction, transformation, reporting, and database analysis.
- Collaborated with cross-functional teams to deliver data-driven solutions and improve reporting workflows.
- Worked on analytics projects involving sales analysis, customer insights, and business intelligence reporting.

Deltron Technologies | Data Analyst Intern

Mar 2023 – Jun 2023

Tech Stack: Python, SQL, Excel, Pandas, NumPy, Power BI, MySQL

- Processed, cleaned, and analyzed datasets using Python, SQL, and Excel to generate business insights.
- Performed data preprocessing, exploratory data analysis (EDA), and data visualization to identify trends and patterns.
- Developed Power BI dashboards and Excel reports to support data-driven decision-making.
- Created SQL queries for data extraction, transformation, and reporting from relational databases.
- Supported analytics projects involving sales analysis, performance tracking, and business reporting.

Personal Projects

House Price Prediction | Machine Learning & Regression Model

- Built a machine learning regression model to predict house prices using Python and Scikit-learn.
- Performed data preprocessing, exploratory data analysis (EDA), feature engineering, and model evaluation using MAE, RMSE, and R² Score.
- Developed and deployed a Flask web application to provide real-time house price predictions.

Technologies: Python, Pandas, NumPy, Scikit-learn, Flask, Jupyter Notebook

Movie Recommendation System | NLP & Machine Learning

- Developed a content-based movie recommendation system using Natural Language Processing (NLP) and machine learning techniques.
- Implemented text preprocessing, CountVectorizer, stemming, and similarity algorithms to generate movie recommendations.
- Created a Flask-based web application for interactive movie search and recommendation.

Technologies: Python, NLP, NLTK, Scikit-learn, Pandas, Flask

Sales Data Analysis | Data Analytics & Business Intelligence

- Analyzed sales datasets to identify business trends, customer insights, and revenue patterns using Python and SQL.
- Performed data cleaning, transformation, exploratory data analysis (EDA), and statistical analysis using Pandas and NumPy.
- Created interactive dashboards and visual reports using Power BI to track key performance indicators (KPIs).

Technologies: Python, SQL, Pandas, NumPy, Power BI, Matplotlib, Excel

EDUCATION

Manav Rachna International Institute of Research and Studies | 2022-2024

Master of Computer Application

CGPA : 7.64
